Neo4j Installation :

For installing neo4j go to the below link,

https://neo4j.com/download/other-releases/#releases

1. If Java is not already installed, get OpenJDK 8 or Oracle Java 8, recommended for Neo4j 3.0.x, JDK Version 7 is recommended for releases prior to 2.3.0.

2. Download the Neo4j, extract it in the directory of your choice and follow the installation steps given in the link.

3. For additional commands see the link below,

   https://neo4j.com/docs/operations-manual/current/installation/linux/tarball/

Neo4j-driver manual:

Neo4j-python driver :

For neo4j-python driver manual find the below links:

1. http://py2neo.org/v3/ (py2neo driver)
